

BIGG Trigger Point Workshop and Pasture Walk

Tuesday 26th September 2023, 10.30am-4.00pm

With the season forecast to cut out early, BIGG will be running a workshop to help manage this risk and develop strategies going forward. In conjunction with the workshop, we will be visiting farmers who have sown mixed species pasture/hay options, including a newly installed water trough pumping system that aims to increase water intake through aeration.

Time	Topic	Location
10.30-12.30	<p><u>Trigger Point workshop</u> (<i>Deb Scammell, BIGG/Talking Livestock</i>)</p> <ul style="list-style-type: none"> - Seasonal conditions and making decisions - Trigger points to determine if and when to containment feed - Forecast of ration costs 	Hoopman Room, Vine Inn, Nuriootpa
